Debate paperwork

See work/debate_form.pdf for content recommendations.

Tips

- Limit text.
- No gifs.
- You can make your own simple graphs in R.

  ```
  files <- T
  if(files)pdf("....pdf", height = 5, width = 5, bg = "white")
  plot(1:25, pch=1:25, col=1:25)
  if(files)dev.off()
  ```

- No explicit bibliography necessary.
- You can have fun, but you are not a comedian (probably).
