Day #5 (Part B): tables

Sean Laverty

Wednesday, September 6, 2023

Sometimes we need to present information in tables.
Below we center-justify,

x	$f(x) = x^2$	$g(x) = e^x$
0	$f(0) = 0^2 = 0$	$g(0) = e^0 = 1$
1	$f(1) = 1^2 = 1$	$g(1) = e^1 = e$

Below we right-justify,

x	$f(x) = x^2$	$g(x) = e^x$
0	$f(0) = 0^2 = 0$	$g(0) = e^0 = 1$
1	$f(1) = 1^2 = 1$	$g(1) = e^1 = e$

Below we left-justify,

x	$f(x) = x^2$	$g(x) = e^x$
0	$f(0) = 0^2 = 0$	$g(0) = e^0 = 1$
1	$f(1) = 1^2 = 1$	$g(1) = e^1 = e$

Below we mix all sorts of justification,

x	$f(x) = x^2$	$g(x) = e^x$
0	$f(0) = 0^2 = 0$	$g(0) = e^0 = 1$
1	$f(1) = 1^2 = 1$	$g(1) = e^1 = e$

Here is some text about the table below. I don't know what I will put in the table yet. Any ideas?

	Yes	No
Pineapple	3	9
Anchovies	1	everyone else
Mushrooms	7	3
Balsamic vinegar and fig	5	4
	16	who knows
